STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/2/
Total stocks of leaf tobacco smaller than a year ago.

Leaf tobacco stocks in the United States and Puerto Rico totaled 4,700 million pounds as of January 1, 1973, based on the quarterly reports of dealers and manufacturers. This was a decline of 128 million pounds when compared with the previous January 1.

Domestic flue-cured and burley stocks were below the January 1, 1972 totals by 185 million and 14 million pounds respectively, while the combined inventory of foreign-grown flue-cured and burley tobaccos rose 29 million pounds to a record high of 48 million pounds. Foreign cigar leaf tobacco stocks showed a gain of 23 million pounds. Domestic cigar filler and dark tobacco stocks reached record lows after decreasing 21 million and 5 million pounds respectively.

Loan stocks as of January 1, 1973 were divided as follows:

flue-cured	494.5	million	pounds
burley	293.6	11	11
fire-cured	0.7	11	11
dark air-cured	13.1	11	11
cigar leaf	2.9	11	11

^{1/} Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks. (See table in body of report for reported weight basis.) This report is issued quarterly.

^{2/} All Government loan stocks are reported by grower cooperatives, which are considered dealers for stocks-reporting purposes.

CIGARETTE LEAF STOCKS

Flue-cured and burley lower: Maryland higher: imported stocks larger.

Stocks of <u>flue-cured</u> tobacco totaled 2,327 million pounds on January 1, 1973--a decline of 185 million from last January 1. Final producers' sales of the 1972 crop are estimated at 1,021 million pounds, about 55 million below last season.

Burley inventories this January 1 totaled 1,551 million pounds--14 million below the stocks of a year ago. Producers' sales of the 1972 crop are expected to surpass 580 million pounds, a gain of at least 22 percent from the 1971 crop.

Maryland stocks on January 1, 1973, were 46.6 million pounds--0.6 million above a year ago.

Stocks of <u>foreign-grown cigarette</u> and <u>smoking tobacco</u> were 417.6 million pounds, an increase of 18 million from last January 1. The inventories of foreign-grown flue-cured and burley were at record levels.

^{1/} Types 11-37 are reported on the basis of packed weight.

^{2/} Farm-sales-weight equivalent based on unstemmed sweated weight factor.3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.
